

Post Top Mounting

Create a classic looking streetscape with this economical sign system. All components are made from rust-free aluminum. Choose your vinyl street blade from the options on page 11. Our "Signature" or "Classic" setup options allow for a variety of sign sizes. Recommended sign sizes listed below, or call us for custom setups and sign material thickness options.

Wing Brackets

These brackets are made of solid rust free aluminum and powder coated with any of our standard color options. Large and small brackets are available for a variety of sign sizes. Brackets hold flat .080 or extruded aluminum vinyl street signs; see page 11 for available vinyl sign size and color options. Brackets are also available in a raw "mill finish" if you prefer to finish.

COMPONENTS USED

Wing Brackets	Item I.D.
8 SMALL WING BRACKET w/ POWDER-COAT FINISH	WB-S08
SMALL WING BRACKET w/ RAW FINISH	WB-S00
9 LARGE WING BRACKET w/ POWDER-COAT FINISH	WB-L09

SIGN NOT INCLUDED IN PRICE, SEE PAGE 11 FOR OPTIONS

SMALL WING
SHOWN WITH 36" X 6"

LARGE WING
SHOWN WITH 42" X 9"

In addition to being mounted to our standard posts, Wing Brackets can also be fastened to walls, concrete, wood or existing posts with 3/4" strapping bolts, lag screws or spikes. Provide us with information on your mounting application and we can send a hardware package that suits your needs. Additional costs for hardware and fasteners may apply.
