Thinking of going GREEN? This is the material for you then...

Our sign board is a high quality recycled material available in the color options shown below. We can also create signage from a solid black or green material and add color with our custom color resin fill. The sign material is a superior for outdoor applications, and an economical solution for a wide range of signage. Signs are available in 1/2" or 3/4" thicknesses, the thickness used is determined by the size and mounting style required. We can accomidate nearly any size, shape or font, call us for more information.
